- Good knowledge of OOPs concepts like Abstraction, Encapsulation, Polymorphism and Inheritance.
- Good practical knowledge of Strings, Exception Handling, Collections Framework and File Handling.
- Implemented custom sorting using Comparable, Comparator, Singleton Design Pattern and JavaBean.

JDBC

- Good architectural understanding of JDBC and loose coupling principles.
- Implemented Statement, PreparedStatement and CallableStatement for database operations.
- Good knowledge of JDBC transactions and configuration files.
- Written and executed Stored Procedures using CallableStatement.

SQL

- Good understanding of RDBMS concepts.
- Writing SQL statements like DDL, DML, DQL.
- Implemented joins and subqueries.

TECHNICAL SKILLS

- Programming: Java, SQL
- RDBMS: Oracle, MySQL
- Core Subjects: Operating Systems, Computer Networks, Cloud Computing
- Tools: Eclipse, Visual Studio
- Android Tools: SDK, Eclipse IDE, Android Studio
- OS: Windows, Linux basics

CERTIFICATIONS

Completed (Java, J2EE & SQL) Training from Jspiders BTM Bangalore.

PROJECTS

- **Restaurant Management System** Web Project
 - Built a Restaurant Management System with modules for orders, menu updates, and customer billing.
 - Enhanced operational efficiency through real-time order processing and data management.
 - **Tech Stack:** React.js, Express.js, MongoDB.
- **Graph-Based LAN Framework for Insider Threat Detection** Final Year Project – 2025
 - Developed an advanced framework to detect insider threats using graph-based learning and temporal behavior analysis.
 - Implemented real-time anomaly detection to identify deviations in user behavior and prevent data breaches.
 - Integrated blockchain-based secure metadata storage to enhance enterprise network security.
 - **Tech Stack:** Hyperledger Fabric, IPFS, GNN, Python, Express.js, Next.js, Docker, Blockchain, AES Encryption.

PERSONAL STRENGTH

- Takes responsibility and initiative.
- Confident and determined.
- Ability to cope with different situations.
- Effective communication.
